Circle of Dance:

Thank you for joining us at the culmination of our dance residency. We were thrilled to share what we learned about rhythm and dance with family and friends. Working with partners was really fun. Cooperation is important in achieving success in all aspects of our learning.

Dates to Remember:

- Trip to Marathon Playhouse on April 21st
- In school Wax Museum presentation this coming May
 - Poetry writing celebration in May – You will receive a note from your child’s teacher with the date and time.

A Visit from a Noted Author:

As the recipients of the James Patterson Grant, the first grade was privileged to receive books and a visit from the author of The Dooples series – Dr. Lynn Hunter. She shared a video of her book and read her newest book in The Dooples series. In addition, we were able to ask her questions about her books and receive a personally signed copy of one of her books. She even asked us to use our imaginations and create a sequel of our own. It was truly an exciting, educational and inspirational experience.

Field Trip:

We are looking forward to seeing "Frog and Toad" at the Marathon Playhouse on April 21st. The children will have the opportunity to see two of their favorite characters come to life.

All About Books Writing Celebration:

We celebrated the culmination of our All About Books writing unit with our peers. Class 1-106 and 1-100, and Class 1-102 and 1-104 shared their informative books with each other. They also gave positive and constructive feedback on their pieces.

Parent Teacher Conferences:

Thank you for attending Parent Teacher conferences in March. We valued our meetings with each of you and the opportunity to share your child's strengths and weaknesses. If you have still not had the chance to meet with your child's teacher, please contact them for an appointment.

Parent Engagement: Math Games

Thank you to all of you who joined us for Math games. It was so nice to see all of the parents engaging with their children while utilizing the math concepts being taught in class. We hope you are having fun while practicing your addition and subtraction facts at home.
