

G.A.T.E. Enrichment – Spring 2018

Dedication...Inspiration...for Collaborative Problem-Solving and Success!

That's our P.S. 174Q G&T Enrichment Program! Through our variegated and accelerated STEAM curriculums, our fantastic students are surpassing our fondest hopes. With enthusiasm, determination and hard work, they continue to have a spectacular year. We've

- worked with the outstanding Russell Sage Math Team, in developing advanced math skills,
- received honors with Wall Street's Investwrite and our super Debating Team,
- won recognition in numerous Art and Writing contests, including for essays on World Hunger, the Future of technology, posters on Women's History, and published poetry,
- won 1st place in the Ezra Jack Keats' Foundation's Bookmaking Contest representing the entire borough of Queens.

Most recently, we're looking forward to continuing our legacy of winning honors in the New York City Science Expo. Students are presently busy preparing great projects for our P.S. 174Q Science Fair, coming at the end of this month. We look forward to seeing parents join us. We couldn't accomplish all we do without your support!
